

Life Changing Centre

Isn't it amazing to see drug growing field becomes drug rehabilitation centre?

For many years this place was a place to grow opium and produce narcotic drugs under drug warlord Khun Sa. Khun Sa surrendered to Myanmar Military in 1996 and the place became liberated area under Thai government. Then the founder of Operation Dawn from Hong Kong moved in and established drug rehabilitation centre 14 years ago. It is very successful. Many drug addicts from Myanmar, Thailand, Taiwan and other places come to get rehabilitation. No alternative medicines were used. Rehabilitation is done only by the words of God, the power of the Holy Spirit and the love of Christ.

Drug addicts are ranging from 10 year old to 60 year old. There are different nationalities.

Please listen to this man's (standing with yellow short pant) testimony.

"I have been addicted to narcotic drugs, various kinds of drugs, for more than twenty years. I have gone through rehabilitation program many times in Myanmar and China. But failed. I have been arrested and put in jail for many times but I got back to my old habit soon after releasing from jail. I think there is evil spirit in me forcing me to go back to drug again and again many times. I heard about this Operation Dawn drug rehabilitation centre from my friend. So I decided to come to try to get rid of my bad habit. I feel very good and very confidence this time. I think the evil spirit in me has been driven out by the Holy Spirit. I am victorious this time. If the Holy Spirit is not in me, I am sure I'll go back to my bad habit again. I am here for almost one year."

Praise, worship, prayer and encouragement

**2 Cor 5:17 Therefore, if anyone is in Christ, he is a new creation;
the old has gone, the new has come!**

Thanks for your support
